EUROPEAN IMMIGRATION

TO THE

CANADAS & WESTERN STATES!

—BY—

Train & Co's Line.

ENOCH TRAIN & CO., Proprietors of the Boston and Liverpool Line of Packets, hereby give notice that they have made extensive arrangements with the Western Rail Road Corporations, in connection with the Rail Roads in the Western States, and Steamboats on the Lakes, for the forwarding of *pre-paid passengers* from Boston to the Canadas and Western States; and are now selling at their office in Boston, and at their *authorized agencies, pre paid certificates of passage* as follows:

From Liverpool to Boston,	$18 00
" " Albany, N. Y.,	18 00
" " Buffalo, "	22 00
" " Kingston, C. W.	22 50
" " Columbus, O.,	22 00
" " Montreal, C. E.	24 00
" " Toronto, C. W.,	23 00
" " Hamilton, "	23 00
" " Cleveland, O.,	23 50
" " Sandusky, "	23 50
" " Dunkirk, N. Y.,	22 00
" " Toledo, O.,	25 50
" " Detroit, Mich.,	24 00
" " Cincinnati, O.,	24 00
" " Chicago, Ill.,	25 00
" " St. Louis, Mo.,	25 00
" " Milwaukee, Wis.,	25 00

Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months thirteen dollars less than the above named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 8 oz. of Sugar; 5 lbs. of Oatmeal; 2½ lbs navy bread; 1 lb. wheat flour; 2 lbs rice.

Children under twelve and above one year (including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.

As soon as our Liverpool House informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route to the westward.

Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, Inform those who take an interest in the welfare of immigrants, that as owners of the new LIVERPOOL and BOSTON LINE OF PACKETS, they have determined that their Immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants.

In calling public attention to the subjoined list of the Ships which comprise our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by these Ships, and to the superior Diet, Comfort, and Safety which their Passengers

News of the Morning.

A variety of important news will be found under the Telegraph head. The steamship *Arabia* has arrived with four days' later dates, and some stirring intelligence. Russia is mustering all her energies for a great struggle. The allied fleets in the Black Sea have bombarded Odessa; are attacking and receiving serious damage. The Turks still successfully resist the advance of the Russians towards Constantinople. Breadstuffs are slightly lower (except Wheat) and Consols show another advance.

Our domestic news is of equal interest. The Nebraska Bill still lingers in the House. Gallantly have its opponents fought the good fight, and great will be their reward. Let them persevere without flinching to the end!

Mr. DANIELS, our Charge at Turin, has had a heavy verdict rendered against him for Libel. The New York and Buffalo markets show but little change under the foreign news. Indeed the home demand and scant supply will keep prices up, on this side, till next harvest, whatever be the complexion of news from abroad.

The Rail Road to Madison.

The Milwaukee and Mississippi Rail Road will be completed to Madison by Wednesday or Thursday of this week, and the auspicious event is to be duly celebrated on Tuesday next. We do not doubt that our citizens fully appreciate the importance of the close connection thus established between the Capitol and the commercial metropolis of Wisconsin, or that they will heartily unite in the festivities with which the union is to be inaugurated. We understand that the Excursion Train will leave here between 7 and 8 o'clock, Tuesday morning, arrive at Madison between 1 and 2 the same afternoon, and returning thence at 5 P. M. reach home by 11 o'clock at night. This will allow three or four hour's stop at Madison for those who wish to return the same day, but many will doubtless remain there till the day following and return by the regular train. The price of Excursion tickets—going and returning—will be fixed at $2,00—less than half the regular fare.

We hear that one or two of our Fire and Military Companies talk of joining the Excursion trip, and we hope that they will make their arrangements to do so. Our Madison friends, on their part, are preparing to welcome their expected visitors in fine style. A Pic-nic dinner will be provided at the Depot in the village, and a Banquet and Ball at the Capitol House. To those of our readers who have never yet visited the Capitol we commend the opportunity as one not to be neglected. The country is now arrayed in all its charms, and MADISON, like the acknowledged belle of a ball-room, smiles proudly in her unequalled loveliness.

The Revenue Laws.

Our article upon the subject of the careless manner in which Collectors of the different lake ports do their duty seems to have stirred up the ire of the commercial editor of the Buffalo *Commercial Advertiser*. He insists upon it that our Collector is to blame for the fact that vessels arrive here without full and accurate manifests, or to use the *Commercial's* words, he commits an "egregious blunder" in relation to it. We copy what the *Commercial* says further:

In the second instance, the Collector of Milwaukee commits just as aggregious a blunder. The master of a vessel is required by the act of February 20th, 1793, to obtain at the port from which he clears, a manifest of his cargo, containing a full and accurate account of all articles on freight.—It he *sails without this*, the law imposes upon him a penalty of one hundred dollars. That penalty is not incurred until after he *leaves* the port, and consequently must be enforced at the port at which he arrives subsequently. If masters of vessels make a false statement of their cargo at Buffalo, or sail without a manifest, it is the duty of the Collector at Milwaukee, or any other port at which the vessel arrives, to enforce the penalty. The law does not contemplate that the Collector at the port of clearance shall examine every vessel after she is loaded, but requires the master to *swear* to his cargo. When fraud is suspected, it becomes the duty of the Collector of the port to examine the cargo, and see whether it agress with the sworn manifest. The statement that vessels are constantly in the habit of arriving at Milwaukee from Buffalo with false or incomplete manifests, taken in connection with the fact that the penalty imposed by law is not enforced by the Collector of that port, convicts him clearly of neglect of duty.

We happen to know that our Collectors here, for two or three years past, have endeavored to bring captains of vessels to the mark, but they have been scolded at and abused oftentimes by masters who have come around from Buffalo, or who have left Chicago or Detroit, for asking for manifests. Masters say to them—"Why do you meddle with us in *Milwaukee*? They never trouble us in the other ports?" It can scarcely be expected that our Collector will take any great pains to compel a strict observance of port regulations, or of the law relative to manifests, unless he is seconded by officers at their ports. When has the Buffalo Collector ever compelled the production of manifests? During the past two years, we doubt not that there have been fifty cases where vessels, steam and sail, have gone hence and arrived at Buffalo without such "full and accurate manifests" as the law requires.

We hope that the attention called to this matter will bring about a stricter observance of the law. This is all that we ask, and it will be better for all parties.

FIRE AT CHICAGO.—Four dwelling-houses on Desplaines Street, near Randolph, in Chicago, were destroyed by fire, with most of their contents, on Friday night last. The occupants, Messrs. Andrews, Talley, and White, lost nearly all their furniture, clothing &c. The buildings belonged to Messrs. James and Hugh Ward were worth $6000, and insured about half that amount.

OAKLAND AND OTTAWA RAILROAD.—The Detroit *Tribune* states that, by the 1st of January next, this road will *be in running order to a point 70 miles beyond Pontiac*, and near the centre of the State. During this summer, a strong force will be at work this side, and the whole line to Grand Haven will doubtless be open by or before the 1st of January, 1856.

☞ The *Frankfort Commonwealth* declares that John J. Crittenden was duly employed as counsel in the Ward case, (by the father for his son) long before the trial. The father being an old and personal friend, he declined to receive a fee for his services in the case; but in no other sense, it says, was he a volunteer counsel. The question put by the Commonwealth is: "Was he excused for doing that without charge which he would have been required to do for money?"—

New York Correspondence.

New York, May 6th, '54.

Messrs. Editors:

If those Ice-bergs have betaken themselves to warmer regions, and if nothing turns up or down to prevent, we shall have a taste of Spring ere Spring closes. Really the weather has been astonishing to people not accustomed to "rainy seasons." The great storm of Saturday week will be long remembered by those who chanced to be wayfarers. Along the Hudson the water rushed down the rocks, hissing like a great steam engine, crossing the dreams of those who were 36 hours from Albany to N. Y. with nightmare thoughts of loosened rocks, and falling boulders. It was an odd sight, (*for those under cover.*) to watch the feats of speed produced by the thunder-storms of earlier in the week. Such an ignoring of dignity; such annihilation of stateliness; such merging of grace in excess of haste, as the cars came down the street; watchful masculines ran, rushed, and tumbled upon them long before they reached the end of their route. The feminines, who knew that a bonnet and skirt were passports into any shelter however crowded, waited quietly for the return track.

Against one thing we must protest. There are men on the sunny side of life who assume the perpendicular instantly on the appearance of a lady, though she be young and stout, who yet sit unconcerned while men of snowy hairs and bowed frames, feebly groping down hill, strive to steadily themselves among the standing crowd.—The manly yielding to weaker frames which should prompt the concession in the one case, is full as imperatively demanded in the other.—Reverence to the aged is a grace as well as a virtue.

The Crystal Palace is open once more. This time, it is to be hoped, New York will pay it the compliment of an occasional visit. As I write, above its roof the flags of the nations float in the Western breeze, the stars and stripes surmounting all. Filibusteros and Destiny-men will read in that a prophecy of the coming Age. Did it never strike them that Uncle Samuel might turn Autocrat when the world lay at his feet? Who will answer for *his* moderation, who never yet was moderate SAVE from expediency? Henry Clay was right in dreading for us the thirst for military glory. California and New Mexico were not the only fruits of an unjust war.

> When the others are ripe and ready to fall,
> We will see Uncle Samuel will gather them all.

Cuba, Canada and Continual Conquest! We shall not be able to live without the excitement of gain. Who ever saw the hunger of Avarice satisfied; or the thirst of ambition slaked? Is either less voracious, less fiery than before it fattened on the heritage of the red man, or bowed the sons of Africa to be its water-carriers? It is easy to be eloquent on others' sins! to count up others' crimes. Easier, because pleasanter, than to recall our own. Uncle Samuel should be drawn as the giant in the old story-books, with a victim in each hand, Africa and America supplying the originals. Getting a good look at himself that way, he might learn a little of the humility which is the root of wisdom as well as virtue.

Now for a glimpse at the fashions. Do you see yonder man with brimless hats? Don't laugh. That is the spring-style, a black cylinder, minus the relief of a reasonable brim.—Imagine Socrates or Plato under such a hat! Regular extinguishers of dignity, wit and wisdom they, for neither of those desirable endowments could be supposed to hide itself under such a cover. If all Gotham submits to the imposition, what a ludicrous herd all Gotham will be. Foundation of all beauty, strong basis on which all ornament should rest, is the beauty of fitness. What fitness can there be in paring off the hat-rim as the sun approaches Sirius?

As for ladies' bonnets, they will scarcely bear mention. A heap of flowers and ribbons from beneath the chin, meeting over the bump of self-esteem, and kept in place by a net-work of lace and wire, furnishes a grand opportunity for the display of beauty, natural or acquired, but leaves no shield for modesty when bold eyes put it to the blush. The amusing part of it all is, there seems to be one size for all faces, so that while for delicate combinations of nose, mouth, &c., it is a very pretty setting, for noses aquiline, mouths bovine, and cheeks seven-by-nine, it is just no setting at all. The wonder is how they ever stay in place, the one hope left is that this generation, having endured dust, sun and staring for one season, will be content to repair their ravages, so far as they are not irreparable, beneath a bonnet as is a bonnet and not a satire.

Now is the hey-day of pleasure seekers—the Ravels at Niblo's, Placide at Burton's, Mr. and Mrs. Barney Williams at the Broadway, Wallack himself on his own boards, Jullien promised at Castle Garden, the Palace at the Palace, and "a new Moral Drama" at Barnum's.

It is time people who are shocked at a good old English comedy, (and when we say good, we mean one in which there is nothing to offend delicacy, the scissors being used to bring a past-age up to our standing)—who would not for the world be seen laughing at Burton's Wilkins Micawber, or crying at Charlotte Cushman's Mrs. Haller—knew that the only theatre in town where unattended women congregate is "Barnum's Museum." So Rumor whispers in quiet corners, and sneers in unquiet club-houses. Should not country people know this? They who honestly condemn theatricals ought to be saved from the worst form conveyed to them, as medicine to children, with a sugar coating. They who hypocritically condemn ought to have this pretence of a moral Drama at a Museum, taken from them. *A bas le Humbug.* VIOLET.

CROPS IN SHEBOYGAN COUNTY. The Evergreen City *Times* reports the winter wheat in that county as looking uncommonly well, and promising an abundant yield. The farmers report that at least *three times* the quantity of wheat and oats has been sowed this Spring, that was put in last year.

SCHOONER CLIPPER CITY.—The Manitowoc *Tribune* copies our notice of this fine vessel and makes the following *addenda*:

The Clipper City was *modelled* by W. W. BATES & SON, and is owned by Messrs. PLATT & BRO. of this place.

We cannot better the rest of the article except by saying that Capt. BELL sails her.

OPPOSITION TO LAND GRANTS.—The Janesville *Gazette* discovers a woeful inconsistency in the course which the *Sentinel* has pursued, with reference to land grants, and proposes to mend the matter in this wise:

We are disposed to help our friends of the Sentinel, and explain that in its opposition to Railroad grants in this State, its objection is to the *road* to be benefitted, rather than to the "principle" of the grant, and if the city of Milwaukee could alone reap the benefits of a donation, no objection would be raised to the "principle" or the amount of the gratuity.

The *Gazette* very clearly defines its position, while misrepresenting ours. The *Sentinel*, as our readers all know, and none better than the *Gazette*, has opposed *all* land grants, whether the anticipated benefits were to enure to Milwaukee alone, or Milwaukee in common with the rest of the State, or the rest of the State to the exclusion of Milwaukee.

MANITOWOC HARBOR.—The U. S. Harbor Agent at Sheboygan, Mr. Clark, with the approval of Col. GRAHAM, Superintending Engineer, advertises for proposals to furnish 14,080 ft. of square pine timber, 280 cords of stone and 1200 lbs. 1½ inch round iron; one-half to be delivered on or before the 15th day of June, and the remainder before the 15th of July next. Proposals to be received till Saturday next at 3 o'clock.

☞ The "Fairy Light Guard" consisting of a Battalion of "strong minded" Girls in Uniform, for whose reception Barnum's Museum and the Crystal Palace, along with the rest of mankind was "up and dressed" yesterday, turned out to be Girls "in buckram." The thing was a hoax. The only wonder is that such a ridiculous story gained belief at all. But New York is a "funny place."—*Albany Evening Journal.*

Reasons for Going to War.

The Morning *News* copies our query, addressed to the Sheboygan Journal, as to the nature and extent of the "glaring designs" and "unscrupulous plottings," of England, France and Spain, in regard to Cuba, and after abusing us in good set phrase for presuming to ask such a question, foregoes its affected indignation and proceeds to answer it. We had intimated that the main spring of Mr. SLIDELL'S recent phillippic in the Senate, as of preceding Filibuster outbreaks elsewhere, was to be found in the rumored design of the Spanish authorities to emancipate the slaves in Cuba. Of course, "Democracy," as preached and practised at the South, illustrated by the Pierce administration and defended by the Morning *News*, is utterly opposed to any such *practical* enforcement of the doctrine of Equal Rights and Universal Liberty. But as it would hardly do, in the face of the Civilized and Christian world, and in the middle of this enlightened Nineteenth century, to set up *such* a cause of quarrel with Spain, some other pretext must be found to break with that country and seize upon Cuba. This notable device is thus shadowed forth in the Morning *News*:

The Paris correspondent of the Philadelphia North America states on reliable authority that a treaty is, and has been for some time, in existence, signed and sealed, between France, England and Spain, guaranteeing to the latter Power the safe possession of the Island of Cuba against all claimants and all enemies.

The Paris Constitutionel, which is regarded as speaking the true sentiments of the French Government, recently put forth a remarkable article on this subject.

Excellent reasons Faith! Because a correspondent of one paper asserts the existence of a treaty between England, France and Spain, guaranteeing to the latter the possession of Cuba, and because the Editor of another paper publishes a "remarkable article," *therefore* the powers aforesaid are guilty of "glaring designs" upon Cuba, and the U. S. in self-defence must forthwith take possession of that long coveted prize. We submit that if such considerations are to control the foreign policy of our Government, we shall be in hot water all the while.

It would be the height of folly for the United States at the present time to *seek* a quarrel with any power. There is every possible consideration why we should endeavor to keep at peace with our neighbors, and not one why we should go to war. Cuba, in good time, will doubtless be ours; but ours, we trust, by friendly negotiation and fair purchase—not by force. To attempt to pluck the fruit before it is ripe may prove a costly experiment in more ways than one. Let us bide our time.

VIOLENT ASSAULTS. Mr. R. H. Stewart, of Manitowoc, was assaulted and stabbed on Friday night last, while going from the pier to his house, by two persons unknown. The wound is a severe one. Mr. Stewart can form no idea who his assailants were, or what their object.

Washington Items and Rumors.

Washington, Wednesday, May 10, 1854.

Rumors are rife of all sorts of bargains having been made to secure votes for Nebraska. Votes for French Spoliations, votes for railroad grants, and votes for any thing almost are promised in exchange for a vote for Nebraska. And one vote it is said was obtained by a promise of a share in a private speculation in which a certain Senator is engaged. It is in this way a majority has been secured. Several members who have voted, and will vote *against* Nebraska, have said they would vote *for* it if necessary, most of them Softs. It may perhaps be proper to add, that Gwin dickered with Walbridge for his vote.

Mr. Gadsden arrived here to-day, and leaves to-morrow for Charleston with the treaty. The Government steamer Fulton, Capt. Mitchell, now coaling at Norfolk, will, in two or three days, touch at Charleston, take Mr. Gadsden on board, and then proceed to Vera Cruz. Mr. Gadsden entertains no doubt of obtaining Santa Anna's assent to the treaty.

The House is still (10½ o'clock) in session.—Great scenes are being enacted there. Mr. Olds of Ohio has bargained with Nebraskaites to abridge the debate. Mr. Hunt of Louisiana remonstrated most indignantly at his course, and Mr. Olds made a lame and impotent explanation. Mr. Hunt's course was lofty and gallant—it was a specimen of true southern chivalry. Mr. Benton declares that the Representatives are imprisoned. Yes, sir, imprisoned—incarcerated to pass an odious, vile, and disgusting measure.

Mr. Upham delivered an immensely able speech to-day in the House in opposition to the Nebraska bill.

Special dispatch to The Evening Post.

Washington, Wednesday, May 10, 1854.

I learn from the best authority that Charles H. Peaslee, Collector of Boston, and Member of the last Congress from New-Hampshire, is to go to London as Consul, in place of George W. Sanders, whose nomination was rejected by the Senate.

Benjamin F. Hallet, the present District Attorney, will succeed Peaslee in the collectorship; the office which he was very indignant at not getting originally.

C. Levi Woodbury is to succeed Hallet as District Attorney. This was the office for which he was an original applicant, and the only one, except that of patent agent, which he was willing to take, and neither of which he got.

Peaslee is now in this city. E.

Special dispatch to The New York Express.

Washington, Wednesday, May 10, 1854.

The Nebraska bill looks doubtful to-day.

Opposition to it is increasing in the Southern ranks!

Three votes are secure against it from Virginia, four from North Carolina, and five from Tennessee.

The Administration is alarmed for the result. Douglas was up all night encouraging the faint-hearted.

SINGULAR PHENOMENA.—A few evenings since, just as the veil of night was falling over the heavens, there appeared in the east a meteor like a ball of fire. Suddenly a portion of it parted, and sliding down the heavens formed itself into the figure 2, leaving a streak of light between, the parent body resolving itself into a distinct figure 3. Many were the explanations of this singular sign given by our citizens; but the mantle of prophecy seems to have fallen most effectually on the shoulders of four respected fellow citizen, Barney Chin, who says in the usual misty style of prophets that it boded war, and there will be engaged two nations against three. So be it.—*Shullsburg Pick & Gad.*

FOR EUROPE.—Mr. FRANCIS C. HOFFMAN, a German citizen of this County, leaves for Europe Friday next, for the purpose of disseminating information relative to the Agricultural and other interests of the State. Mr. Hoffman is a gentleman of integrity and of fine talents.—He has had an opportunity of becoming extensively acquainted with the resources of Wisconsin, and is therefore well qualified to give all infomation required.

Mr. H. will, undoubtedly, do much towards sending emigrants to this State. We understand he goes highly recommended by the Governor, and that he may be favorably received as an agent of this Government.—*Sauk Co. Standard.*

NEW LIGHT HOUSE ON THE NORTH POINT.—Capt. STRONGMAN advertises that proposals will be received at the Detroit Office of Light House Inspector, till June 15th, for the building of light houses and keeper's dwellings at the following places.

1. On the north point of Milwaukee Bay, Wis.
2. At the mouth of Grand River, Lake Mich.
3. On Point Betsey, Lake Michigan.
4. At La Pointe Harbor, Lake Superior.
5. At Rock Harbor, Isle Royale, Lake Superior.
6. At the mouth of Portage River, Lake Superior.
7. At Grand Island Harbor, Lake Superior.
8. At Point Iroquois, Lake Superior.
9. A light house at or near the mouth of Eagle River, Lake Superior.
10. On Round Island, near the entrance of the river St. Marie.
11. At the northern outlet of Winnebago Lake, Wisconsin.

The descriptions of the tower and dwelling at the north point are as follows:

The tower is to be of brick, of circular form, to have an interior diameter of six and a half (6½) feet, and vertical walls sixteen (16) inches thick and twenty-one (21) feet nine (9) inches above the surface of the ground.

The dwelling house is to be a square of twenty-eight (28) feet side, one and a half story high, with brick walls one foot thick, divided into three rooms and an entry in both stories, a cellar under the whole house, and a slate roof.

The tower is to be three (3) feet from the gable end of the dwelling, and connected with it by a passage-way three (3) feet in width, enclosed by brick walls one foot thick. At the opposite end of the dwelling is to be a frame shed ten by twelve (10x12) feet, with door and window. Also a cistern, with brick walls, laid and plastered with hydraulic cement, and a vault four by five (4x5) feet, covered with a suitable building.

The walls of the tower, dwelling and passage are to rest on rubble stone bases eighteen (18) inches thick, laid at such a depth as may be sufficient to obtain a secure foundation. The walls are to be carried up twenty-one (21) inches above the level of the ground, when the joists of the first story will be laid. The floors of the dwelling are to be double, of white pine. In the dwelling are to be two outside and ten inside doors; five windows of twelve, and four of eight lights each. The tower is to have two doors, of boiler iron; two windows of eight ligts; three cast iron floors, seven (7) feet two(2) inches in diameter and three-fourths (¾) of an inch thick, with a man-hole in the upper one. The floors and roof of the passage connecting the tower and dwelling to be of cast iron five-eighths (⅝) of an inch thick.

The work is to be completed by the 30th of September next.

FOX & WISCONSIN RIVER IMPROVEMENT.—The Fond du Lac *Herald* says:

"It is very generally understood that steam boats are now making their daily trips from Green Bay to Kaukauna, a distance of 20 miles. From this place to Menasha 15 miles, passengers and freight have to be transported by land over plank road. Along this 15 miles are numerous rapids around which canals have to be made, and here it is that the heaviest work is to be done. At Kaukauna the canal is about a mile and a quarter in length, and a fall of about 50 feet to be overcome, which is done by six locks. These are now nearly ready to be put in—piles all dug, and abutments nearly completed, with a goodly supply of men employed.

At Little Chute, four miles above, another canal of about a mile in length, with four locks, is in a forward state of progress, and at Grand Chute the excavation for about a mile of canal, is nearly completed, a breakwater of 700 feet built, and the lock pits and abutments progressing as fast as men can be employed to push it forward. At Menasha the requisite force has not yet been put on; but it is expected that the work on this section, leading into lake Winnebago, will soon be again renewed, and the whole completed so as to be ready for the opening of navigation in the spring of 1855.

The whole length of canal necessary to secure a steamboat communication with lake Winnebago, is about 5 miles. It is 100 feet wide on the bottom, and 120 at the top, (two feet wider than the famous Wabash and Canal.)—The locks are 40 ft. wide by 160 long, built in the most permanent manner of solid stone masonry, and in a style that will not suffer in comparison with any similar work in the eastern states. It is calculated, that, with the improved manner of working these locks, a steamer can pass each in the short space of three minutes."

THE VOTE IN THE HOUSE OF REPRESENTATIVES ON THE NEBRASKA BILL.—It will be seen by the following table, from the N. Y. IMPROVEMENTS.—During a visit the other day to the adjoining town of York, we noticed that new houses, barns, fences, and other improvements have multiplied rapidly during the past year. Hon. John Smith has lately erected one of the most beautiful residences in the State.

The people of Columbus are also making improvements on all sides. Among the rest, a splendid dwelling by Mr. Ingolsby, on Madison street, will soon be finished. A new store has just been completed of brick in good taste by Mr. Bassett. It would be tedious to enumerate the buildings now going up around us.—*Columbus Reporter.*

CHOLERA IN TOLEDO. The Toledo *Blade* reports two instances of cholera in that city, which occurred under the the following circumstances:

On Tuesday last Mr. Wm. H. Hall, one of the victims of the disease, started from Dubuque, Iowa, with two ladies in charge, from a hotel where the cholera was prevailing. On arriving at Chicago he despatched one of them to Detroit, and the other was so nervous and excited with fear, that he sent her on to his residence in Toledo, in advance of himself. Mr. Hall came on in a subsequent train, and soon after his arrival, the affrighted girl was attacked and died of cholera on Thursday. On Saturday, Mr. Hall himself was attacked about 1 o'clock, and died at 10 o'clock, P. M.

For about four weeks Mr. Hall had been undergoing fatigue, and often deprived of rest. He had been to Virginia, and to Iowa, and arrived at home on Wednesday last, literally exhausted and worn out with mental and physical exhaustion.

ANNEXATION.—The river was spanned yesterday by a magnificent rainbow, one end of which appeared to rest in Canada, and the other in Yankee land. Any one climbing up to the middle of it from this end, could easily have slid down the other in into Windsor.—*Detroit Enquirer.*

RAILROAD CELEBRATION.—A large meeting of citizens was held last evening at the Capital House, to take into consideration the matter of celebrating the opening of the Railroad to this place. A. A. Bird, Esq., was chosen President of the meeting, and Simeon Mills, Esq., appointed Secretary. It was resolved to celebrate the occasion properly, and the following Committee of Arrangements was appointed:

Myron Orton, Simeon Mills, William N. Seymour, James Morrison, N. W. Dean, F. Tibbits, Chauncey Abbott, A. A. Bird, D. Scarer, Thomas Hood.—*Madison Argus.*

TO ALL WHOM IT MAY CONCERN.—For the benefit of a number of *hombres* who have taken umbrage at recent articles in the *Era*, we will state, that we have engaged, for the purpose of attending to all their cases, a *fighting Editor*, whose duties are confined exclusively to this branch of editorial department. He stands seven feet in his stockings; his walking cane is a Minnie rifle, his shirt buttons are ounce balls, and he has "killed his man."—*Cal. paper.*

CATTLE STRUCK BY LIGHTNING.—We are informed that five head of cattle were struck by lightning and killed, Monday evening last, in the barn yard of D. M. Platt, Esq. of Summerville.—Four of the cattle were lying near each other, but the fifth was some distance from the others. No injury was done to the buildings.—*Janesville Gazette.*

DEATH BY LIGHTNING.—We are pained to learn by a Letter from Charles Morrel, Esq., that J. R. Speed, an enterprising and valuable citizen of Tompkins Co., and recently President of their Agricultural Society, was a few days since, by Lightning.—*Alb. Eve. Journal.*

☞ Charles Hathaway, of Windsor, Broome Co., with his wife, two children and sister were drowned by upsetting of a skiff in the Susquehanna River on Sunday last. They were crossing the River on their way to Church.—*Alb. Eve. Journal.*

THE MINES.—Judging from the published accounts of mining operations in the Western part of the State, this branch of home industry was never so successful as now.—*Madison Argus.*

QUICK TIME.—The Lightning Train on the Central Road is to run from Albany to this city, under the summer arrangements, in nine and a half hours.—*Buffalo Commercial.*

Particulars of the Fight on the Nebraska Bill.

DOINGS IN CONGRESS ON THE 12TH AND 13TH.

Washington, May 12.

HOUSE.—The House continued in session all night. Much confusion and not a little disorder prevailed. The Nebraska bill, and other subjects were discussed, in which much matter of a personal character was mixed up.

At noon to-day, Mr. Dean raised a point of order, that as twelve o'clock was named in the first rule, as the time for the meeting of the House, and as that hour had now arrived, the journal should be read.

The Speaker overruled the point, on the ground that there had been no adjournment, and this was only a continuation of the legislative day, commenced yesterday, and that he had no authority to adjourn the House.

The chaplain came in as usual, to perform his duty if necessary.

Mr. Banks quoted the order of the House adopted the first day of the session. "At 12 o'clock, noon, shall be fixed as the hour to which the House shall stand adjourned each day, except otherwise ordered;" therefore the House stands adjourned by its own order.

The Speaker still persisted that the legislative day still continues, and because there cannot be a meeting of the body without an adjournment.

Mr. Banks appealed and wanted to make an explanation, to show there is precedent for his point; but numerous objections were made.

The discussion continued on parliamentary order and rules up to five o'clock this evening, and nothing was done but calling the yeas and nays on the various motions offered, evidently to kill time.

Below we give a sketch of the proceedings in the House last night.

Nothing of special interest occurred until 8 o'clock this morning, when Mr. Dean said, we have been here fifteen consecutive hours and have made no progress. I now appeal to both sides of the House, to accept the proposition made yesterday morning, to allow the debate to continue till Thursday next, and to postpone the special order which intervenes. This will give an opportunity for a full discussion, and is alike fair to both sides.

This was objected to by Tweed and others.

Mr. Richardson said he was advised to state the proposition to postpone the special order on the Nebraska bill to some time next week, would meet with no opposition from the friends of the measure.

Mr. Campbell, the leader of the opposition, said he had invariably been refused the privilege, and he must now object to the gentleman's proceeding.

Matters became confused, and daylight arriving, the members became jaded some had their; heads tied up.

The morning papers were handed in, which with some baskets of food seemed give considerable relief.

A motion to adjourn was again negatived by a vote of 67 to 66, a close chase.

At six o'clock, Mr. Wright, of Pa. wished to make a proposition,

Mr. Washburn—I object.

Mr. Wright—You don't know what you are objecting to.

Mr. Washburn—I withdraw the objection.

M. Cullum—I object.

Mr. Wright—We offer you this olive branch, and you will not take it.

Mr. Cummings—I propose that we postpone the Pacific Railway bill one week from next Tuesday, allowing the intermediate time for debate.

Mr. Campbell—I object.

Mr. Dean—I hope the opponents of the bill will accept of the proposition. It is fair, and the man who does not accept of it is liable to the charge of being a factionist.

By this time the morning was pretty well advanced, and after a little more discussion just as fruitless and worthless, noon arrived.

Doings of Friday night.

Washington, May 13:

All members present in House, quietly talking over pending matters.

At half-past one, Mr. Richardson announced that the Nebraskaites had yielded, and moved an adjournment.

Intense excitement ensued.

Mr. Hunt, of La. appealed earnestly for adjournment to Monday, to allow time for reflection.

Mr. Cullom of Tenn. responded.

Mr. Phelps, of Ga. said Mr. Hunt would give no guarantee for the good faith of the faction opposed to business, and went on to denounce with severity the New York call for a meeting.

Mr. Seward, of Ga. moved an adjournment to Monday.

Mr. Campbell, of O., protested with great excitement of manner, that he would resist to the end.

Mr. Edmonson, of Virginia, advanced to Mr. Campbell, and attempted to throw off his coat, and fiercely declared that he would have the fight now. Campbell stood prepared for the contest when loud cries of "Order, order," and "sergeant at-arms," when Dr. Aiken and Mr. Dean, of New York, interposed. The sergeant-at-arms rushed forward with the mace, and hundreds of voices called, "Order, order," "fight out doors," &c. Mr. Edmondson was withdrawn by his friends.

Judge Douglas, in the middle of the fracas, and Mr. Benton, approaching at length, after restoration of order, and a comparative calm, an adjournment was carried, with wild shouts, stamping and shouting.

Mr. Edmonson had, previously, very serious difficulty with Wentworth, who was forced to retire from the Hall. Throughout the contest, 35 1-2 hours, the conduct of Speaker Boyd has been admirable, and previous to the last affair excellent good humor prevailed.

SOUTHERN WISCONSIN RAILROAD.—Col. Hugh Lee, Chief engineer of the S. W. R. R., returned to this place on Thursday last from a reconnicsance of the country bordering on the Mississippi; having, very fortunately, discovered and surveyed a new line—commencing at a point on the old line near the north-east corner of the township of Jamestown, in Grant county, and running west across several ridges of easy grade, until the new survey reaches what is locally known as Scofield Hollow—leading down into the valley of Indian Creek—which stream empties into the Little Platte River near its junction with the Mississippi river. What is the most remarkable in this new survey, will be received with a degree of incredulity by many who have deemed it literally impossible to reach the Mississippi without an extravagant outlay of money in grading the road within three to five miles east of the river. This opinion is proved by this survey to have been erroneous. On the Sinipee route, the estimates for grading were one hundred thousand dollars a mile, for three miles, through a heavy rock cut. On the route down Indian Creek, this expense is reduced at least 80 per cent.—A difference of more than two hundred thousand dollars saved in reaching the Mississippi river by this new survey. The stockholders and friends of the road, may well feel elated under this new state of facts. The people in the west are thoroughly alive and deeply interested in the work. The citizens of Potosi feel confident *now* in a connection with eastern Wisconsin by means of the S. W. R. R.

Under the new arrangement with Milwaukee—which will be undoubtedly perfected at the next meeting of the Board of Directors—the work will be forwarded with reasonable dispatch.—*Monroe Sentinel.*

A DOG STORY.—A friend of ours owns a noble, great Newfoundland dog, about which he tells a good many funny stories, among which is the following.

We tell it as it was told to us, promising only that our friend is a man of fair character for veracity, and we believe the story ourself. He spent several weeks last summer in a country village, accompanied by his dog Boney—an abbreviation of Napoleon Bonaparte—his true name. Now Boney is an educated, gentlemanly dog—conscious of his own strength, and from very magnanimity, pays no attention to small animals that bark at, or even bite him.—He had been taught to fetch and carry, and it was only necessary to point out any article that he could lift, and order him to bring it along, and Boney would bring it.

A small spaniel, about the size of a cat, was in the daily habit of imposing upon the good nature of Boney, impudently attacking him and seizing him by the long hair on his hind-leg and shaking and growling away, as if it were really somebody; all of which Boney bore with Christian forbearance, never even showing his ivory, but trotting away with dignified contempt from his puny assailant.

One day our friend was walking out with his dog, when the little spaniel, full of importance, made his usual attack on Boney. "Fetch him along," said our friend, pointing to the spaniel. No sooner said than done; Boney bounced upon him, and, rolling him over and over with out hurting him, took him by the nape of the neck, and trotted along after his master with all the dignity and animal consciousness of being in the performance of a pleasant duty. The little dog yelled, and howled, and struggled, but there was no use in talking. Boney trotted around after his master, with the spaniel in his mouth, as a cat may some times be seen carrying one of her little ones, greatly to the amusement of all the little boys in the village. At length his master ordered his prisoner to be released, when the little animal, thoroughly humbled, drew a bee line for home. He gave Boney a wide berth after that.—*Albany Register.*

NEW YORK, May 13—2 P M.

The Pacific sailed to-day for Liverpool. She took 200 passengers and $400,000.

The Willis and Forest libel case closed yesterday and the jury were equally divided between $10,000 and 5c.

TROY, May 13.

A locomotive ran into a passenger car this morning near Greenbush. Several passengers were injured some fatally. Cars demolished, much confusion.

We since learn it was the 8-40 train which overtook the 8-30. The Express engine went half through the passenger car of Greenbush train; no person killed but many passengers including the conductor were injured.

JUDGE HUBBELL PRESIDING.

Monday, May 15th.

State of Wisconsin vs. John Rycraft.—Deft. discharged upon his recognizance.

Samuel L. Elmore vs. John D. Bearnsdoff et al —Answer to interrogatories:

State of Wisconsin vs. James Connaughty. —Motion for discharge of prisoner.

John Rycraft et al. vs. S. W. Sea et al.—Order of attachment for sheriff of Marquette County.

Greenleaf D. Norris vs. the city of Milwaukee. —Jury empanelled and cause in progress.

POLICE COURT, MAY 13th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Three men named Frederick Miller, Ferdinand Buchman and Jacob Buchman, were tried on a charge of assault and battery upon John B. Klitzing on the 11th of May. The testimony of the complainant was, that two of the defendants got him into a shanty and beat him, and that the other one afterwards said he had not got enough, pitched into him also. Four witnesses were called for the prosecution, and all testified that they were within about 30 feet of the place where the difficulty was alleged to have taken place, but saw or heard nothing of it. The court remarked that the testimony of the complainant was uncorroborated in a single particular and that it was unnecessary to go into a defense. The defendants were found not guilty and discharged.

A VALUABLE CARGO. The fine propeller *Milwaukee*, Capt Marsden, cleared hence for Buffalo on Saturday night, with the following cargo;

4589 bbls. flour, 87 tons hams and shoulders, 16 bbls. sundries, 11 pckgs. furniture, 3 slabs copper, 48 bags seed, 27 do wheat, 16 box'e goods, 8 casks of potatoes, 5 casks ashes, 13 bbls. seeds, 23 do beans, 12 kegs butter.

The whole value is somewhere about $50,000, being one of the most valuable cargoes ever cleared from this port.

Real Estate Owners, Attention!

There will be a meeting of the owners of Real Estate on East Water St., from Wisconsin Street to the Walker's Point Bridge, together with the Aldermen of the Third Ward, at the Common Council Room Tuesday Evening, May 16th, at 8 o'clock, to consult as to the expediency of putting East Water Street in a good condition.

It is requested that there be a full meeting, and it is expected that prompt and immediate action will be taken.

MOTION FOR THE DISCHARGE OF CONNAUGHTY.—In the Circuit Court, yesterday, a motion was made for the discharge of James Connaughty, now in jail, and awaiting a new trial for the murder of John Gullen, whereof he has been once convicted. The motion is made on the ground that having been once tried, convicted and sentenced for this crime, he cannot, under the Constitution, be again put in "jeopardy for the same offence."

THE GLOVER RESCUE.—Three of the parties indicted for riot, in connection with the Glover rescue, have been discharged upon their own recognizances. The fourth, Martin Smith, (colored) was arrested by Sheriff Page yesterday and committed to jail; the Sheriff finding him at the boat, in the morning, and suspecting that he might be making off; as he had his "traps" along and was armed and equipped for travel.

CONCERTS BY THE PEAK FAMILY.—On Wednesday and Thursday evenings of this week the Peak Family will give Concerts at Young's Hall. Of the quality of the entertainment offered, our readers can judge from the eulogistic notice which we annex from the Alton *Courier*:

The first musical entertainment by the PEAK family last evening at Hope's Hall, was well attended, and the performances of such a character as to give universal pleasure. This family combines a greater variety of talent than any single troupe of performers which has ever appeared in Alton, and although we, in common with many others, were prepared to expect a high order of performance, we were not prepared for that rich melody, exact execution, distinct articulation, and power as well as sweetness of tone which distinguished both the vocal and instrumental performances of last evening.

The bells were played without the slightest harshness, and in excellent tone, both in instrumental pieces and as accompaniments to the voice. Little EDDIE, only three years old, is a perfect prodigy, and was the undoubted favorite. Miss JULIA'S powerful voice was modulated with great skill, showing a full appreciation of her subject.—The Harp was played by a master hand, and the closing piece, the Marseilles Hymn, by MRS. PEAK, was rendered with much power and effect.

A HARD FATE.—The wife of CHARLES H. LEE, now in jail on an indictment for Larceny, died on Sunday evening and his only child yesterday morning, both of small pox. The prisoner wrote a note to the Judge begging him "for God's sake" to let him out to see his wife and child buried. A strong effort was being made last night to obtain bail for the unfortunate husband. Under ordinary circumstances the sheriff would have let him out in the charge of an officer to attend the funeral, but as the deaths were from small pox, to have let him out, to come back and perhaps take the disease to the jail to the other prisoners, could not be allowed.

☞ The steamer *Arctic*, Capt. Butlin, arrived from Chicago yesterday afternoon with 69 passengers and small load of freight. A splendid stallion 3 years old, brought by Mr. Crandall of Dodge Co., from Michigan, was landed, and leaves this morning for Dodge Co. Numerous merchants were down to meet the *Arctic*, but found none of their goods; though some of them were shipped on the 16th of March.

DRUNKENNESS.—Two women named Catharine Thornburg and Elizabeth Bowler, and two men named Edward Thornbury and Robert Robertson, were committed to jail yesterday for being drunk and disorderly in the streets.

☞ A woman named Jane Sargeant was arrested and committed to jail yesterday on a *capias*, charged with keeping a house of ill fame; her husband has been arrested and in jail some time for the same offence.

☞ The brig *Ferguson* left Port Huron on Friday night last, with a full load of lumber for this port.

☞ The Prop. *Buffalo* met on the 10th, off Thunder Bay, Lake Huron, the following vessels bound down, with a fair breeze;

Schrs. *Aldebaran, A. Bronson, Defiance, Mary. Luther Wright, Barque Badger State.*

☞ Engine Company No. 5, threw a stream of water last evening from in front of McCurdy's Block, on Union street, over Davis' Franklin Buildings, on to Water street, being a height of some 70 feet. This is the highest "pitch" yet by any of our machines" in the Forest City. Beat it who can?—*Cleveland Herald.*

There are six "machines" in this city, two or three of them rather old; but all can beat the *Herald's* long and not half try.

The Schooner Republic.

This beautiful vessel, owned jointly by Messrs. WILLIAMS & WHEELER, of this city, and Capt. WM. T. CROSS, who sails her, arrived off our port, Saturday morning, and came into the river the same afternoon. As the Buffalo papers had "cracked up" the *Republic* pretty well, we were prepared to see a tip-top craft. She is a beauty and no mistake; carries like a camel and sails like a witch. Her model is a handsome one; her hold roomy; her spars, sails and rigging all of the best. She is provided with the Patent Steering apparatus, manufactured by Sylvester & Cram, of Boston, Massachusetts—a capital contrivance which no vessel owner, having once tried, will be willing to dispense with—and with patent capstan shifting jib-boom, &c. The *Republic* was modelled and built by Messrs. B. B. and FREDERICK JONES shipbuilders of Buffalo, and brothers to our Capt. J. M. JONES, who follows the same calling. She is as handsome a specimen of their skill and handiwork as they could well turn out. Capt. Cross, who sails her, though yet young in years is one of the veterans of our Milwaukee fleet, and knows all about his business. We wish the *Republic*, her owners, builders, Captain and all hands, fair breezes, full freights and a prosperous season.

MORE NEW VESSELS.—Besides the schooner *Republic* mentioned elsewhere, two other new vessels made their appearance in port yesterday morning.

One of these is the handsome brig *Empire State*, built in Buffalo by G. S. WEEKS for P. C. Sherman of that city, Capt. DIMICK, (who sails her) and T. P. WILLIAMS of this city. She is 126 feet keel, 29 ft. 6 inches beam, 11 ft. 2 inches depth of hold, and 396 tons custom house measurement; and will carry 16 or 17000 bus. wheat. She brought a large lot of iron for the Watertown Railroad Co. She is beautifully modeled, and her owners think will sail and carry with anything afloat. The *Empire State* loads immediately with wheat for Buffalo.

The fine schooner *Charley Hibbard*, built at Port Huron by Capt. ARNOLD, for WM. B. HIBBARD of this city, also came in, bringing about 160,000 ft. lumber, besides lath, shingles, &c. She sails for WHEELER & Co., with flour and rye for Buffalo at 47c and 12c, and after one trip to Buffalo, will go into the lumber trade.

The *Charley Hibbard* is 213 tons register, handsomely modled and thoroughly finished throughout. Capt. ADLAM is master, and is proud enough of his fine craft.

A CHANCE TO SEND.—That energetic and tasteful jeweller, A. B. VAN CORT, who has recently established himself in KIRBY'S old stand, corner of East Water and Wisconsin St., leaves for New York the last of this week, to look up the novelties of the season. He says that he will readily take charge of any orders for articles in his line.

MASONIC CELEBRATION.—The corner stone of a new Masonic Hall is to be laid at Chicago, on Thursday next, with appropriate ceremonies.—Brethren of the order, resident in this city, who may wish to visit Chicago on the occasion, can obtain tickets for the trip ($3,00 for both ways) by applying to KELLOGG & STRONG.

The Letter "S."

Messrs Editors:

In this morning's *Sentinel* your Correspondent "Fish Hooks" complains of the too free use of the letter "S."—Now in his case he had just cause to complain; yet I have for a long time thought that the little crooked letter had been left out when it should have been used. I refer especially to the word "Brick" when used in connection with, and following "Milwaukee," so that the connection shall read when justly presented "Milwaukee Bricks" and not "Milwaukee Brick."

I think in this case the "S" adds beauty to the word and is very expressive and shows fully an enlarged view of the subject under consideration; while when the "S" is left off, the subject matter seems diminitive and wanting in importance to which "Milwaukee Bricks" are fully and fairly entitled.

In presenting its claims to notoriety I would not wish to have you overlook the letter "S" but always set me down,

STATE OF WISCONSIN, } ss.
MILWAUKEE COUNTY, }

PROBATE OFFICE, May 15, A. D. 1854.

In the matter of the proof of the last will and testament of Henry Lane, deceased, late of the County of Milwaukee:

WHEREAS, an instrument in writing, purporting to be the last will and testament of Henry Lane, deceased, late of the County of Milwaukee, has been filed in this office: and whereas, application has been made by William Turner, praying that the same be proven and admitted to probate according to the laws of this State,

Therefore, it is ordered that said application be heard before me at my Office in the city of Milwaukee in said County, on the 5th day of June, A. D. 1854, at 10 o'clock A. M.

And it is further ordered, that notice shall be given to all persons interested in said will of the time and place of said hearing, by publication in the Sentinel, a newspaper printed in said City, for three successive weeks, once each week, prior to the time of such hearing.

By the Court,

VALUABLE FARM FOR SALE.

THE UNDERSIGNED OFFERS FOR SALE

ONE OF THE MOST DESIRABLE FARMS

In the State of Wisconsin.

IT CONTAINS one hundred and forty-six acres, is well watered, rich fertile soil, provided with timber and meadow land, and is under a good state of cultivation. It is situated between two of the main thoroughfares leading out of Madison (the County Seat of Dane County, and the Capital of the State of Wisconsin) one and a half miles from the State House, and one half mile from the State University. The location is on an elevated plain, giving an excellent view of the Town, "Third" and "Fourth Lake," and the high rolling Prairies, fifteen to twenty miles distant, making it one of the most desirable country seats in the whole Western States. Its proximity to the Capital will make it a convenient residence for one doing business in the city or to use for agricultural purposes alone, and for an investment will result in great pecuniary advantage.—The farm is known as the second Madison, and "Governor Farm." A large part of the purchase money may remain on Bond and Mortgage for a term of years. Any enquiries by mail respecting the above farm will be promptly answered. my11dtwtf LEONARD J. FARWELL.

Arrival of the "Lead Express."

THE

BUFFALO EAGLE IRON WORKS CO.

Propose to pay Particular attention to

Architectural Iron Work.

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

Patent Fire Proof Rolling Shutters.

These Shutters are the same that are now so generally used in New York, and may be put in any Window, Small or Large, and it arranged before erection of the building, may be used without in the least affecting the symetry of any edifice. They make the only perfect Fire Proof Shutters, and do not appear to the eye when rolled up

When desired we will furnish the Plan for Store Fronts, (with or without the Patent Shutters) with estimate for the cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for they thus are enabled to know without experiment what the Front is to be, and what is to be the cost.

When the Fire Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutter.

PATENT MEDICINES.

Caution!

To Those Who Use Spirituous Liquors Either as a Beverage or Medicine!

WOLFE'S

Schiedam Aromatic Schnapps.

THE ABOVE NAMED PREPARATION has become extensively known throughout the length and breadth of the United States and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of the Juniper berry that science and a long practice in the distinction and preparation of pure liquors have ever succeeded in producing.

A long established manufacturer and importer of liquors of every description, the undersigned devoted himself to the production of an article of pure gin, which should prove a valuable agent in the cure of the manifold diseases which afflict the human race, and for which Holland has been so celebrated by the medical faculty for years. At length his efforts were crowned with success, at his extensive distillery in Schiedam, Holland, from which place the purest gin has long been imported, and he was enabled to give to the world his Schnapps, which, for purity and entire freedom from the pernicious fusel oil and all other noxious ingredients, and delightful aromatic flavor, has never been equalled, and cannot be excelled.

In order to protect himself from pecuniary loss at the hands of cheats, impostors, and pirates, who would unquestionably attempt to palm off a vile and impure article on the unsuspecting community, and, like the wolf in sheep's clothing, prey upon their very vitals, he resorted to the expedient of importing and selling his Schnapps only in pint and quart bottles.

These bottles are of glass, stamped with the name of the manufacturer; are corked and sealed, and have printed labels bearing the signature of Adolphus Wolfe upon them. They are enclosed in colored wrappers, bearing his signature, in which form alone they can be obtained in cases, containing two dozen bottles each.

Notwithstanding all these guards, unprincipled parties have been found guilty of the unwarrantable and criminal practice of buying up empty bottles, filling them with vile common gin, which is the most pernicious poison with which a community was ever cursed, and sends thousands to a wretched grave yearly.

It is only necessary, therefore, for those who purchase the article by retail, or drink it at public places, to mark well the appearance of the bottles from which they drink. Caution is necessary.

The Schnapps have been introduced but about two years but in that brief time their virtues have been acknowledged to be almost incredible extent, and its fame as a sanitary agent is now so widely spread as to be amply adequate to the demand, so fast are orders pouring in from every State and Territory in the Union, from Maine to Oregon and California.

Determined that the virtues of the Schnapps should be thoroughly substantiated by the most undeniable and unquestionable testimonials, circulars were dispatched to every section of the country of the most learned faculty, and professional chemist whose name could be obtained, soliciting their acceptance of a bottle of the Schnapps, with a view of enabling them to test its medicinal qualities in their respective and submit it to the strictest chemical analysis in the laboratories.

Of the ten thousand physicians and chemists in the United States about four thousand accepted the offer. Upwards of one thousand have promptly furnished their written endorsement that the article is all that is claimed for it, and in the strongest language recommended its general use, as only as a remedial agent, but a delightful, harmless, and pleasant beverage. These voluntary endorsements are from gentlemen of unquestionable knowledge and the most perfect science.

Nor do our professional and chemists furnished their testimonials. The public press, in almost every principal city and town, has spoken boldly in its favor in its editorial columns.

The New York Medical Gazette and Journal of Health, high authority, has repeatedly proclaimed its excellency. In the July number of that journal, Dr. Resse, its accomplished editor, has publicly invited a discussion upon its subject—its use in medicinal mixtures, usually in the mildly circulating columns, and the views of the medical faculty in reference to my schnapps in particular, giving an assurance that they should be spread before the public. Physicians, therefore, who have not already complied with my request to forward me their opinion as to its qualities, will oblige me by doing so through the editor of the Medical Gazette.

Were it necessary to do more than simply state this fact which his ears may read, this advertisement could be increased to an indefinite length by the publication of those authorities, all on file at the ward rooms of the proprietor, in New York.

It is not only as a remedial agent that the Schnapps are to be recommended, but as a gentle and perfectly harmless stimulant, when taken in moderate quantities but decided one in invigorating, and may be indulged in with impunity by those of temperate habits, without the slightest fear of the baneful, unnatural and horrible consequences of delirium tremens, that appalling disease which, decimates the social hearth, entails misery upon countless thousands, fills our hospitals, almshouses, and prisons, and even furnishes the gallows with its deadly fruit.

In countries where pure wines and liquors can be had readily, and for a mere trifle, they are freely used by all classes, and drunkenness is hardly known—that vice to which the couplet of the celebrated Cowper alludes when he says,

"That can be hated, needs but to be seen."

Were Wolfe's Schiedam Aromatic Schnapps to be drank in preference to American whiskies and fashionable liquors, our fashionable assemblies would have less arduous labor to perform, and Horace Greely, Gough, Barnum, and the other real and eloquent, and devoted friends of temperance, would rarely be called upon to make the rostrum, and under the auspices to thrill with "an utterd ear" to the great and startling truths they relate with such fervid and impassioned eloquence. There would be no Maine law to suppress intoxication.

Among us the old and women will persist in drinking drugged, adulterated, poisoned liquors, with which the country is flooded, drunkenness and all its concomitant evils must exist. There is no help for it.

"Oh, that a man will put an enemy into his mouth To steal away his brains."

In many districts of this country, particularly in the region of the lakes, western and southern rivers, the character of their waters is such as to produce great disorganization of the system, and frequently chronic disorders of an incurable character. The unmarried and speculation of which would be a matter of supererogation to all those who reside in the districts specified. When qualified with the Schnapps the bane is neutralized or destroyed. The test has become known to an intelligent and vast, and the Schnapps are used to the extent of thousands of bottles daily. Their great recommendation is their undeniable and well established purity, which can be proved by chemical analysis of the contents of any and every bottle bearing the above enumerated evidences of genuineness. The proprietor solicits the most rigid tests, and defies any person or persons to prove to the contrary, or to produce an article or extract of the juniper berry or Holland gin that will make good, every assertion made relative to the Schnapps have been introduced but about two years but in that brief time their virtues have been acknowledged to be almost incredible extent, and its fame as a sanitary agent is now so widely spread as to be amply adequate to the demand, so fast are orders pouring in from every State and Territory in the Union, from Maine to Oregon and California.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

These Pills being composed entirely of medicinal herbs are of a most harmless nature, while the extraordinary virtues they possess have rendered them universally popular in all parts of the world. The immense sale of these Pills has never been equalled by any other medicine, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1850, for a severe attack of bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoonful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many fond parents. I consider all cases of the Throat and Lungs I believe it the best medicine extant. A feeling of the deepest gratitude prompts me, in addressing you these few lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt. Trans., L. R. R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.

DR. J. C. AYER,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for it. And it is a pleasure in selling such to me. I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours, with respect, JOHN C. WHITLOCK.

P. S. Almost any number of certificates can be sent to you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. AYER, Sir: This may certify that I have used your Cherry Pectoral for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not hesitate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCULLEN, Attorney at Law.
